Green Energy Dimmers

State of art Dimmer technology applicable to dimming all types light bulbs including dimmable compact fluorescent

Blue LED signal diode is ON when the dimmer is ON and in use

Memory of last setting level - when turned OFF and ON again, it remembers the last setting and automatically sets that last level

Green Energy Lighting

- New! Patented flicker-free ANALOG DIMMING system in range of 100% - 10%
- Reliable start at the lowest setting
- Very long life: Up to 10 times longer than ordinary bulbs
- The most compact CFL's on the market with FULL LIGHT OUTPUT
- Saves up to 80% energy with comparable light output
