

*"Greening America One Home At A Time"*

## SERVICE AREAS

### 1. Green Energy Installers Wind

GEI Wind Department has four areas: #1 - Supplier for wind turbines - if you would like more information click here. #2 - GEI will install wind turbines on residential or commercial - to find out more click here. #3 - GEI consults public and private organizations on the benefits of wind and contact negotiations. #4 -GEC is a project manager for large wind projects.

### 2. Green Energy Installers Building

GEI Building Department starts with our parent company American Dream Custom Builder's - "ADCB". ADCB builds an energy efficient home on multiple levels. If you are interested in building GEI is a Structural Insulated Panel supplier - for more info click here. For general contractors that would like to use SIP's but don't have an installation crew we can help. GEI Building Department also consults in real estate transactions and project management.

### 3. Green Energy Installers Lighting

GEI Lighting Department is a dealer for energy efficient light bulbs, dimmers and switches. If you would like more information please contact us. We also sell and install lighting retrofits to residential and commercial applications. For large projects we offer project management and design consulting.

### 4. Green Energy Installers Solar

GEI Solar Department installs solar PV and hot water on residential and commercial applications. On solar fielding larger than four acres GEI becomes a project manager and is known as an energy consultant for large projects.

### 5. Green Energy Installers Consulting

GEI Consulting Department heads all energy and builder consulting for all of the departments.

### 6. Green Energy Installers Finance

GEI Finance is made up of stockbrokers and financial planners that help consumers buy and sell RECS.
